

Prerequisites

To be eligible to pursue the EarthCraft Technical Advisor Qualification, interested parties must:

Attend a Home Energy Rating System (HERS) [rater training](#)

Receive a passing score on the RESNET National Rater Test

Become certified with an Accredited Rating Provider and receive a unique Rater Identification Number (RTIN)

Complete information on this process can be found [here](#)

Qualification

To receive the EarthCraft Technical Advisor Qualification, those who fulfilled the prerequisites above must:

Submit an [application](#) for review by EarthCraft program administrators

Applicants will be contacted after submittal, as this step may require an interview with the EarthCraft Program Manager

Attend an [EarthCraft Builder Training](#) and receive a 90% or better on the exam

Complete Technical Advisor Training Modules and receive a passing score on all related tests

Sign a Technical Advisor Agreement and submit membership fee

Annual Maintenance Requirements

To maintain Qualification, Technical Advisors must meet a number of annual requirements, which may include:

- Participating in conference calls
- Submitting quarterly calls
- Attending annual TA convenings
- Meeting a minimum project certification threshold
- Undergoing an annual quality assurance review
- Submit annual membership fee
